Summer

Although Aspen is best known as a winter playground, a whole new world opens up with the summer wildflowers. We enjoy a microclimate all our own, where the skies seem just that bit bluer and the air that much more inviting—even by Colorado standards. Visit our Adventure Center to learn about these Five-Star options, like off-road tours and fly fishing trips (including those in our drift boat), and they'll be happy to make any arrangements. From excursions to exclusive programs, summer at The Little Nell offers endless adventure.

On The River

Sit back and enjoy the scenery or cast a fly for a rainbow, brown or brook trout on secluded Gold Medal waters of the Roaring Fork River, led by our expert guides. Our guides will teach you casting techniques, how to read the stream to find fish, and how to present your fly to catch a big one. Fishing trips include waders, boots, rod and reel.

River Trips

OFF-ROAD FISHING

Ride up Aspen Mountain where you'll discover secret high alpine ponds filled with trout. Enjoy lunch prepared by our Element 47 chefs.

FLOAT

Climb aboard our custom dory boat, complete with a built-in cooler, and experience a float trip down special sections of the Roaring Fork River that most never get to see.

CASTING CLASS

Practice makes perfect – before heading out on the river our guides will teach you how to properly cast.

WALK & WADE

Wade into the Roaring Fork or Frying Pan Rivers and fish for rainbow, brown and brook trout amidst beautiful scenery.

Private Waters

T-LAZY-7

Enjoy exclusive access to the private ponds of Aspen's oldest working ranch, located in the pristine Maroon Creek Valley. Ask your guide about horseback riding to nearby East Maroon Creek, as well as hiking to the acclaimed Maroon Bells area from T-Lazy-7. Recommended for beginners, as well as large groups.

BAR ZX RANCH

This secluded ranch in Paonia, Colorado offers incredible views and excellent fishing. Explore all 24 ponds as you challenge your friends and family to see who can catch all of the 12 different fish species located there.

Off-Road Tours

Let our adventure concierge show you the rugged beauty of Aspen with an off-road trip. Offered as two- or four-hour outings with snack or lunch selections from Element 47.

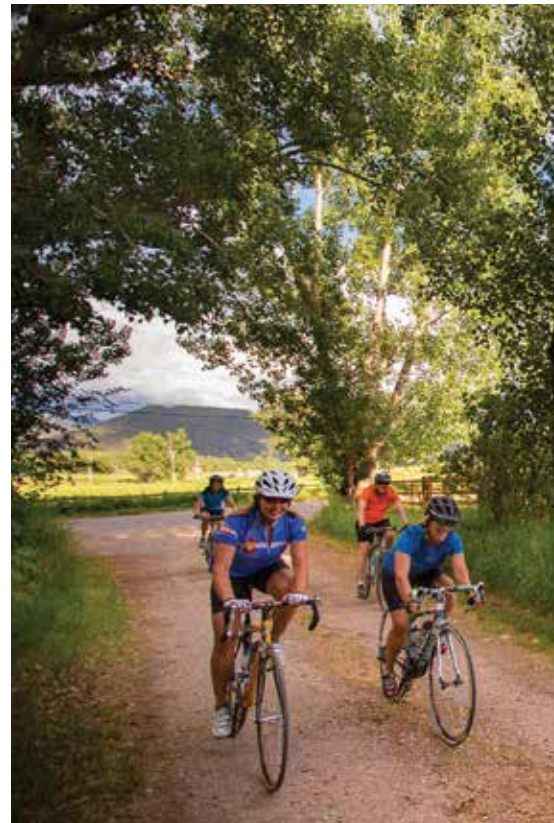

Biking

Always ready to roll, our fleet of complimentary bikes will have you prepared to grab life by the handlebars all summer long. Pedal through town on one of our cruiser bikes, reach new heights cycling Independence Pass, and weave your way through the endless mountain bike trails.

Ride & Dine Series

Back by popular demand, this summer series features a ride downhill from Aspen on the Rio Grande Trail to arrive at Mad Dog Ranch in Old Snowmass for an al fresco dinner. Before departing from the hotel, you'll select wines for dinner from The Little Nell's award-winning cellar. Upon arrival, you'll be treated to a farm dinner prepared by The Little Nell's chefs. After dinner, shuttle transportation back the hotel will be provided.

Stargazing Tours

Our adventure concierge and an astronomy expert will be your guides on a private stargazing tour to see meteor showers, shooting stars, quarter moons and constellations. State-of-the-art binoculars or a telescope are provided as you enjoy sweet treats and delectable drinks from The Nell while learning more about the night sky.

ASPEN MOUNTAIN STARGAZING TOUR

Ascend the backside of Aspen Mountain as the sun sets, and arrive to the top of the mountain just as the night sky appears. Your astronomy expert will provide binoculars and identify stars, constellations, planets and much more, and will answer any questions you have. Blankets will be provided, but extra layers are recommended such as a fleece jacket and jeans. These outings are approximately two and a half hours round trip. Departure time varies slightly throughout the summer, depending on sunset.

T-LAZY-7 TELESCOPE TOUR

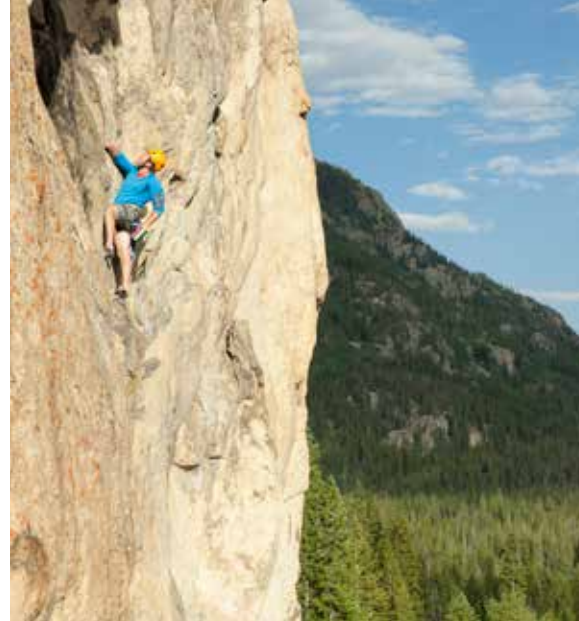

Venture to T-Lazy-7 Ranch in the Maroon Creek Valley with your adventure guide and an astronomer. Using a high-powered telescope, you'll observe stars, planets, nebulae and galaxies that cannot be seen with the naked eye. This trip is approximately two hours.
